
RIVIT

Get to know us

RIVIT is a global leader in the production of stainless steel and special alloy welded pipe.

The main strengths of RIVIT

1

RIVIT manufacturing 20,000 tons of welded pipe are produced annually in Caltrano Italy for many different applications

2

RIVIT and Raw Materials
Stainless Steel
Special Alloys & Titanium

3

RIVIT and Wide Range Dimensions: Pipe with diameters up to DN 2500 (100 in.) and lengths up to 12m (40 ft.)

"Rivit's ability to produce large welded pipe is renowned around the globe. Our strength lies in our constant dedication to serving the needs of unique projects and applications. This has allowed us to improve our production and specialize our product. Rivit's strength is confirmed by our countless number of certifications and satisfied customers."

Vinicio Bulla, founder

Certified manufacturing QUALITY

THE NUMBERS that represent our work

20.000

tons of welded pipe produced annually in Italy.

80.000 m2headquarters

200 employees

30 approvals and accreditations

1 in-house ISO 17025 laboratory

More than **10,000** worldwide customers

PRODUCTS
Wide range!

Round pipes manufactured from press machine (no coil production)

Outside diameter from DN 100 (4”) up to DN 2500 (100”)
Length up to 12 meters (40’)
Wall thickness from 2,00 up to 100,00 mm. (0,08”- 4”)

Hollow section manufactured from press machine (no coil production)

80 x 80 mm (3”¼x 3”¼) up to 300 x 300 (11”¾x 11”¾)
Length up to 6 meters (20’)
Wall thickness from 3,00 up to 12,70 mm. (0,12”- 0,5”)

Elbows in two shells

Outside diameter from DN 100 (4”) up to DN 900 (36”)
Short / long radius - Radius2,0 - 2,5 - 3,0(not for all dimensions)
Wall thickness from 3,00 up to 12,70 mm. (0,12”- 0,5”)

MATERIAL range

Austenitic stainless steels

TP304/304L · TP304H · TP316/316L · TP316TI
TP 321/321H · TP 347/347H · TP 317/317L
TP 309/309S · TP 310/310S · UNS S30815

Superaustenitic stainless steels

UNSN08904 · UNSN08367
UNS N08926 · UNS S31254
UNS S32654 · UNS S34565

Duplex and super-duplex

UNS S31803 · UNS S32101 · UNS S32205
UNS S32550 · UNS S32750 · UNS S32760

Nickel alloys

UNSN02200 · UNSN02201 · UNSN04400 · UNSN06007 · UNSN06022 · UNSN06059
UNSN06600 · UNSN06601 · UNSN06617 · UNSN06625 · UNSN06985 · UNSN07718
UNSN08020 · UNSN08028 · UNSN08031 · UNSN08800 · UNSN08810 · UNSN08811
UNSN08825 · UNSN10276 · UNSN10665 · UNSN10675

Copperand nickel alloys

UNS C70600 · UNS C71500

Titanium

UNS R50400 (Grado2) · UNS R50550 (Grado3) · UNS R56400 (Grado5) UNS
R52400 (Grado7) · UNS R53400 (Grado12)

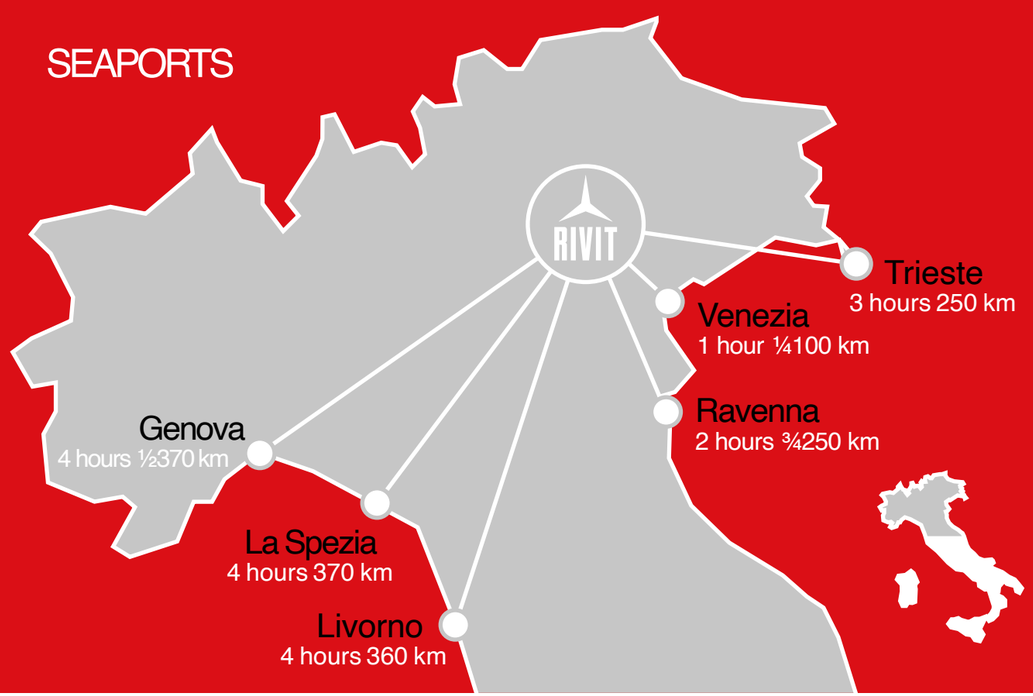
SEAPORTS



The COMPANY

100%privately owned by Holding BULLs.r.l. RIVITis a private family-owned company with engagedshareholders.

Marco Bulla, managing director

Excellence,tenacity, vigor, respect and the ability to quickly react are trademark values that have characterized Rivit since its beginning in 1960. These values have helped Rivit become a leading manufacture of welded pipes on the international market. Attention to detail in production goes hand in hand with respect for our employees, who are offered continuous training. The value of this approach has been confirmed by the loyalty of Rivit's customers and employees.

CORPORATEculture

1960
First production of welded pipe as COMER

1973
Foundation of RIVIT by BULLAfamily

1993
Accreditation to ISO9001

1999
Induction heat treatment facility

2006
Establishment of Holding Bull by Bulla Family

2007
New facilities for production of 12 m long pipe with WT up to 70,00 mm

2014
Implementation with new facilities for heavy WT pipes

2018
New 12 m long press machine and new pickling line ISO17025 laboratory

2019
Total surface: 80.000 m²
Total covered surface: 33.800 m²

2021
International markets business consolidation

VISION

We manufacture pipes for customers to support and achieve their goals.

MISSION

Our mission is to manufacture wide range dimensions, high quality products for every kind of application, including customized projects.

VALUES

To listen, always. To work hard.
To learn with humility.
Aiming for perfection.
Respectfor people. Integrity.

APPROVALS and ACCREDITATIONS

- ISO9001: 2015
- ISO14001: 2015
- ISO45001: 2018
- API (American Petroleum Institute)
- EN ISO3834 - 2
- AD2000 - Merkblatt HP0 / HP100 R
- AD2000 W 0 / PED2014/68 / EU, Annex I, Section 4.3
- DNV-GL- Product certifications for naval applications
- BV - Product certifications for naval applications
- UNI CEI EN ISO/ IEC17025: 2018
